RESPONSE TO RESTRICTION REQUIREMENT OF APRIL 9, 2003

Assistant Commissioner of Patents
Washington, D.C. 20231

May 1, 2003

Sir:

In response to the Restriction Requirement issued April 9, 2003, Applicants elect, with traverse, Group III drawn to a method of anti-progestagen therapy comprising the anti-protestagen of Formula II. The Examiner identified claims 10-18 as being within Group III. It is believed claims 2 and 4, which were not mentioned in the Office Action, should also be included within Group III as elected claims. Applicants respectfully submit that, in addition, claims 7 and 9, drawn

Attorney Docket Number O 99473 US
to methods of contraception, should be included in Group III
drawn to methods of anti-progestagen therapy as well.
Similarly, claim 8 should be included as it is also a method
of anti-progestagen therapy. It is further submitted that, as
it would not appear to engender any additional hardship to
search or examine them, claims 5 and 6 to the combined dosage
unit and the contraceptive kit comprising a dosage unit of Org
33245 should be examined in the present application as well.

Respectfully submitted,

William M. Blackstone
